

To : Members of NBFTA

It is with great humility that I accept the 2011 Forest Technician of the Year Award. Todd presented it to me on Sunday and I want to say it is the most significant achievement in my Forestry Career. I have seen firsthand how much work the Executive and Advisory have put into our organization over the years, along with the commitment of our Members, making this recognition a personal milestone.

Forests Technicians are the ones who get things done in the forest and we do it right. I am proud to be one of them. Thank you all so much.

Trevis
