

FOREST LAND MANAGER

FREDERICTON, NB

At Forsite we will excel by being a flexible, adaptable, people-oriented business that grows and profits by creating value for our customers and opportunities for our employees. We will apply our skills, knowledge and technologies to be the best forest management company. We value fostering and sustaining an environment of diversity and inclusion where everyone can reach their full potential.

Forsite is looking for a **Forest Land Manager** to be based in **Fredericton, NB**. New Brunswick's riverside capital, Fredericton is located in the west-central portion of the province and offers a vibrant art and music scene. Even though winters can be cold, Fredericton has something to offer each season, with year-round festivals, lots of daylight in the summer, farmers markets, the beautiful St. John River, and picturesque parks and trails.

WHY FORSITE?

- An annual strategic planning process drives our business. We involve employees across the organization at all levels to gather input; driving accountability to shareholders and senior management.
- Entrepreneurial, business unit structure, regionally based across Canada.
- We offer employees flexible work schedules, a diverse and inclusive workplace, with opportunities for professional development.
- Forsite is a privately owned company, in business for over 35 years.

With 177 employees positioned coast to coast, people are our business. Forsite is looking for a Forestry Professional to help grow our business to meet company growth targets as we continue to grow our business across Canada.

The ideal candidate will have experience managing private forested lands with a minimum of five years of experience with operational planning and management, project management and budgeting, GIS and an understanding of New Brunswick's government silviculture subsidy programs.

WHO WE'RE LOOKING FOR

WHAT WILL YOU DO?

As the Forest Land Manager, you will be involved in the overall management and engagement of numerous private properties in New Brunswick and Nova Scotia including:

- Harvesting and Silviculture Prescriptions
- Infrastructure Assessments and Planning
- Log Sales and Marketing
- Day-to-day Access and Referral Response
- and much more!
